

# CROWDER COLLEGE

## Energy Auditing / Weatherization Course

Available Spring 2010

Monday through Friday  
**February 22—26, 2010**  
8:30 a.m. to 5:00 p.m.  
Wright Conference Center

**Limited to 15 students  
Apply today!**

This course provides details of building features for energy efficiency in new and existing residential construction. The class provides a foundation in energy-efficient construction practices, energy-use testing, and energy modeling in buildings. The course is intended to prepare participants to take the BPI (Building Professionals Institute) Exam and/or the RESNET (Residential Energy Services Network) Energy Rater Exam. Workforce Development Funds to cover all tuition, books and fees are available for students that qualify through WIA (Workforce Investment). Contact your local Missouri Career Center to see if you qualify.

### Cost

**Total Cost: \$1500**

Cost includes tuition, books, fees, and lunches

Financial Aid may be available for this program. Contact your local Missouri Career Center.
